Release:
PROCUREMENT SECTION October 24, 1972
CURRENT SERIAL RECORDS 3:00 P. M. EDT

FEED GRAIN STOCKS UP -- WHEAT SLIGHTLY LOWER

Total stocks of the four feed grains (corn, oats, barley, and sorghum) on October 1, 1972 amounted to 61.6 million tons, 23 percent more than the 50.2 million tons a year earlier, according to the Crop Reporting Board. Large increases were noted in corn and sorghum grain while oats and barley were down moderately.

Stocks of all wheat were slightly below a year earlier and durum stocks were down 10 percent. Rye stocks were 4 percent lower and flaxseed 45 percent under a year ago.

All wheat in storage on October 1 totaled 1,879 million bushels, slightly below the 1,881 million of a year earlier but 5 percent above October 1, 1970. Farm holdings of 739 million were down 11 percent from the record high stocks of a year earlier, more than offsetting a 9-percent increase in off-farm stocks. Disappearance from all storage positions during July-September is indicated at 545 million bushels, compared with 489 million a year earlier. The Commodity Credit Corporation owned 295 million bushels of the total wheat stocks and had loans outstanding on an additional 329 million.

Durum wheat stocks in all positions on October 1 totaled 116.2 million bushels, nearly 10 percent less than a year earlier but 10 percent more than 2 years ago. Farm holdings of 91.5 million were 10 percent less than October 1, 1971 and off-farm stocks of 24.7 million were down 9 percent. Disappearance during July-September 1972 is indicated at 27.4 million, compared with 13.1 million a year earlier and 22.2 million 2 years ago.

Rye stocks in all storage positions on October 1 totaled 63.0 million bushels, 4 percent less than a year earlier but 28 percent above October 1, 1970. Off-farm stocks, at 40.3 million bushels, were 11 percent greater than a year earlier but farm stocks were down 22 percent. Indicated disappearance during July-September was 13.8 million bushels, compared with 13.4 million a year earlier. The Commodity Credit Corporation owned 33.3 million bushels of the total rye stocks and had loans outstanding on 11.8 million.

Old crop corn stored in all positions on October 1 totaled 1,119 million bushels, 69 percent more than a year earlier and the largest for this date since 1968. Old corn stored on farms, at nearly 745 million bushels, was 76 percent larger than October 1 last year. Stocks in off-farm facilities, at 375 million bushels, were up 56 percent. The Commodity Credit Corporation owned 160 million bushels of corn and had loans outstanding on 562 million bushels.

Disappearance from all positions during July-September totaled 1,059 million bushels of old crop corn, compared with 897 million during the same quarter last year.

Oat holdings in all storage positions on October 1 totaled 967 million bushels, 11 percent less than a year earlier. Off-farm holdings of 249 million bushels are the second highest of record but 31 million bushels lower than last year's record high. Farm holdings of 718 million bushels are lower than farm stocks recorded on October 1 for the last 4 years.

Disappearance during the July-September 1972 quarter was 311 million bushels, 3 percent more than the 301 million in the same quarter last year. Exports during July-September were sharply above last year's exceptionally low level.

As of October 1, the Commodity Credit Corporation owned 178 million bushels of oats and had loans outstanding on another 197 million bushels.

Barley stored in all positions on October 1 totaled 451 million bushels, 8 percent below a year earlier. Off-farm stocks of 131 million bushels were 23 percent below a year ago but farm stocks, at 320 million bushels, were 1 percent greater. Of the total barley stocks, the Commodity Credit Corporation owned 10 million bushels and had loans outstanding on 89 million bushels. Disappearance during July-September was 141 million bushels, up 8 percent from the 131 million bushels a year ago.

Old crop sorghum grain stored in all positions on October 1 totaled 142 million bushels, 57 percent above last year but the second smallest October 1 stocks since 1957. Off-farm stocks are up 44 percent while on-farm stocks are two and one-third times larger than on October 1, 1971. Of the total supply, off-farm storages held 111 million bushels and farm storages 31 million bushels.

Disappearance during July-September was 135 million bushels, compared with 87 million in 1971. The Commodity Credit Corporation owned nearly 45 million bushels of total stocks and had loans outstanding on an additional 54 million bushels.

Flaxseed stocks in all positions on October 1 totaled 22.4 million bushels, 45 percent less than a year earlier. Off-farm stocks, at 15.6 million bushels, accounted for 69 percent of the total and were 15.8 million bushels less than October 1, 1971. Farm stocks totaled 6.8 million bushels, 2.4 million bushels less than a year earlier.

Current stocks indicate a disappearance during July-September of 13.1 million bushels, compared with 4.9 million a year earlier. Flaxseed supply for this marketing year was estimated at 35.5 million bushels (carryover of 20.2 million plus production of 15.3 million bushels). Crushings during the quarter were 5.7 million bushels. Exports of 3.6 million bushels were well above comparable quarters of past years.

Of total flaxseed stocks, the Commodity Credit Corporation owned 9.6 million bushels and had loans outstanding on an additional 176,000 bushels.
